

VorTech Test Cases

Student Side: Attendance

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_ATT_01			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 17, 2026			
Test Priority (Low/Med/High): High			Test Executed by: Sheena Dianne De Guzman			
Module Name: Attendance Module			Test Execution Date:February 25, 2027			
Test Title: Verify Summary Statistics Cards						
Pre-conditions: User is logged in as a student and has navigated to the "Attendance" section via the sidebar						
Post-conditions: User can view a correct aggregate summary of their academic presence.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the top row of summary cards.	N/A	Exactly four cards are visible: Overall Rate, Days Present, Total Absences, and Total Lates.			
2	Verify "Overall Rate" calculation.	Current User Data	The percentage accurately reflects the ratio of presence versus total records in the database.			
3	Verify the numerical counts for specific categories.	4,3,4	"Days Present" shows 4, "Total Absences" shows 3, and "Total Lates" shows 4.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_ATT_02				Test Designed by: Benedict C. Jambre		
Requirement No: F_02				Test Designed Date: February 17, 2026		
Test Priority (Low/Med/High): High				Test Executed by: Sheena Dianne De Guzman		
Module Name: Attendance Module				Test Execution Date: February 25, 2026		
Test Title: Verify Subject Specific Data and Progress Bar Logic						
Pre-conditions: User is logged in as a student and has navigated to the "Attendance" section via the sidebar						
Student is enrolled in multiple subjects with varying attendance records.						
Post-conditions: The dashboard accurately reflects the student's standing for the specific subject.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Count the subject cards.	User Enrollment	Number of cards displayed matches the number of subjects the user is currently enrolled in.			
2	Check individual subject headers for identity accuracy.	Subj: <i>General Chemistry 1</i> ; Teacher: <i>Jane Teacher</i>	Card displays matching Subject and Teacher name from the database.			
3	Verify Counter Accuracy	4 Present, 2 Absent, 2 Late, 0 Excused	The four specific counters (Present, Absent, Late, Excused) match the database record count exactly.			
4	Verify Percentage Calculation	Total = 8	The percentage (e.g., 63%) is calculated correctly based on the counts..			
5	Check Progress Bar Fill	63%	The visual "fill" of the progress bar matches the 63% width of the total container.			
6	Validate Color Logic (High)	100%	The progress bar and percentage text color change to Green (Success state)			

7	Validate Color Logic (Low)	25%	The progress bar and percentage text color change to Red (Danger/Intervention state).			
---	----------------------------	-----	--	--	--	--

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_ATT_03			Test Designed by: Benedict C. Jambre			
Requirement No: F_03			Test Designed Date: February 17, 2026			
Test Priority (Low/Med/High): High			Test Executed by:Sheena Dianne De Guzman			
Module Name: Attendance Module			Test Execution Date:February 25, 2026			
Test Title: Verify Monthly Calendar Visual Indicators						
Pre-conditions: User is logged in as a student and has navigated to the "Attendance" section via the sidebar						
Post-conditions: User identifies specific dates of absences or tardiness visually on the calendar.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Check calendar month/year.	System Date	Calendar displays the correct month and year based on the current system date.			
2	Verify status indicator dots.	Legend Colors	Dots (Green, Red, Yellow, Blue) appear on dates that have corresponding attendance entries.			
3	Check "Today" highlighting.	Current Date	The box representing the current day is visually distinct from other days.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_ATT_04			Test Designed by: Benedict C. Jambre			
Requirement No: F_04			Test Designed Date: February 17, 2026			
Test Priority (Low/Med/High): High			Test Executed by:Sheena Dianne De Guzman			
Module Name: Attendance Module			Test Execution Date:February 25, 2026			
Test Title: Verify Chronological Logging of Attendance Events						
Pre-conditions: User is logged in as a student and has navigated to the "Attendance" section via the sidebar						
Post-conditions: User can review the most recent updates to their attendance record.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the activity list order.	N/A	The most recent attendance log appears at the top (descending chronological order).			
2	Verify status badge consistency.	Status Types	Each entry displays a badge (Present, Late, etc.) that matches the color logic of the calendar.			
3	Check timestamp accuracy.	Entry Logs	The date and time displayed for each activity match the database record for that event.			

Student Side: Dashboard

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_01			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify dashboard loads successfully after student login						
Pre-conditions: Student account exists, Student is successfully logged in						
Post-conditions:						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Login using valid student credentials	Email: student@example.com Password: password	Login successful			
2	Navigate to Dashboard	N/A	Student Dashboard is displayed			
3	Verify components	N/A	Greeting banner, metrics cards, notifications, and quick actions are visible			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_02			Test Designed by: Benedict C. Jambre			
Requirement No: F_02			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): Low			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Greeting Message Accuracy based on Time						
Pre-conditions: System clock is functional.						
Post-conditions: Correct time of day greeting is displayed.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Login using valid student credentials	Email: student@example.com Password: password	Login successful			
2	Navigate to Dashboard	N/A	Student Dashboard is displayed			
3	Access dashboard at 8:00 AM	N/A	Banner displays "Good Morning"			
4	Access dashboard at 7:00 PM	N/A	Banner displays "Good Evening"			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_03			Test Designed by: Benedict C. Jambre			
Requirement No: F_03			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Overall Grade displays correct computed value						
Pre-conditions: Student has enrolled subjects with grades stored in database						
Post-conditions: Displayed overall grade matches database computation						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Login as student with grades	Grades: 85, 90, 88	Login successful			
2	View Overall Grade card	N/A	The overall grade shown on the student dashboard.			
3	Compare with database record	N/A	The grade that is actually stored/calculated in the database.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_04			Test Designed by: Benedict C. Jambre			
Requirement No: F_04			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Subjects at Risk count updates correctly						
Pre-conditions: Student has at least one subject below risk threshold (e.g., <75)						
Post-conditions: Risk counter reflects correctly						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Login using valid student credentials	Email: student@example.com Password: password	Login successful			
2	Navigate to Dashboard	Student with 2 failing grades	"Subjects at Risk" card shows "2"			
3	Navigate to Dashboard	Student with all passing grades	"Subjects at Risk" card shows "0"			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_05			Test Designed by: Benedict C. Jambre			
Requirement No: F_05			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: The student has a recorded history of "Present" and "Absent" logs in the database.						
Pre-conditions: The student has a recorded history of "Present" and "Absent" logs in the database.						
Post-conditions:The dashboard displays the correct percentage						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Navigate to the Student Dashboard.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Observe the Attendance Rate card.	Total Classes: 20 Attended: 18	Card displays 90% .			
3	Observe the Attendance Rate card with perfect attendance.	Total Classes: 10 Attended: 10	Card displays 100% .			
4	Observe the Attendance Rate card with zero attendance.	Total Classes: 5 Attended: 0	Card displays 0% .			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_06			Test Designed by: Benedict C. Jambre			
Requirement No: F_06			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify "Tasks Completed" Count and Ratio Accuracy.						
Pre-conditions: The student has been assigned a specific number of intervention tasks or goals by a teacher.						
Post-conditions:The Dashboard displays an accurate ratio of completed versus total assigned						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Observe the Tasks Completed summary card.	Total Tasks: 5 Status: 3 Done, 2 Pending	Card displays "3/5" .			
3	Mark one pending task as "Completed" in the Interventions module.	Task Complete	Dashboard "Tasks Completed" count updates to "4/5" .			
4	Observe card behavior when all tasks are finished.	Total Tasks: 5 Status: 5 Done	Card displays "5/5"			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_07				Test Designed by: Benedict C. Jambre		
Requirement No: F_07				Test Designed Date: February 16, 2026		
Test Priority (Low/Med/High): High				Test Executed by: <to be filled when executed>		
Module Name: Dashboard				Test Execution Date: <to be filled when executed>		
Test Title: Verify Subject Performance Status Badging (At Risk vs. Needs Attention vs. On Track)						
Pre-conditions: The system has specific grade thresholds for status labels (e.g., <50% = At Risk).						
Post-conditions:: The Subject Performance cards display correct color-coded badges based on current grades.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Logged in successfully			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard summary cards load			
2	Observe a subject card with a grade below 50%.	Creative Writing: 47%	Card displays a red " At Risk " badge and a red progress bar.			
3	Observe a subject card with a grade between 50% and 75%.	Mathematics: 73%	Card displays a yellow " Needs Attention " badge and a red progress bar.			
4	Observe a subject card with a grade of 80% or above.	Business Finance: 90%	Card displays a green " On Track " badge and a green progress bar.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_08			Test Designed by: Benedict C. Jambre			
Requirement No: F_08			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Consistency of Attendance and Grade Metrics						
Pre-conditions: Student data is correctly recorded in the database.						
Post-conditions: All metrics displayed in the Subject Performance cards match the student's actual records.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Logged in successfully			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard summary cards load			
2	Inspect the "Attendance" metric on performance cards.	Attendance Logs	Displays "100%" if the student has no recorded absences.			
3	Check multi-card rendering for same-subject different sections.	Correct Section and Subject (Stem A, Creative Writing)	System clearly displays the section (e.g., "STEM A" "Creative Writing") to differentiate cards.			
4	Click "View Details >" on any performance card.	Mouse Click	Redirects to Performance Analytics Module			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_09			Test Designed by: Benedict C. Jambre			
Requirement No: F_09			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Grade Trend Line Chart with Active Data						
Pre-conditions: The student has at least two weeks of recorded grades in the database.						
Post-conditions:The line chart dynamically plots the data points, showing an upward or downward trend.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Logged in successfully			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard summary cards load			
2	Observe the Grade Trend	Observe the chart with no data points.	A horizontal baseline is visible with the label " W1 " centered below it. No sharp peaks or drops are present.			
3	Observe the Grade Trend	Add a grade for Week 1 (e.g., 85%).	The line should move vertically to reflect the grade value on an (implied) Y-axis.			
4	Observe the Grade Trend	Add a grade for Week 2 (e.g., 95%).	A new label " W2 " appears; the line connects the W1 point to the W2 point, showing an upward trend.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_10				Test Designed by: Benedict C. Jambre		
Requirement No: F_10				Test Designed Date: February 16, 2026		
Test Priority (Low/Med/High): High				Test Executed by: <to be filled when executed>		
Module Name: Dashboard				Test Execution Date: <to be filled when executed>		
Test Title: Verify "Pending Tasks" Counter and Completion Logic						
Pre-conditions: The student has at least two weeks of recorded grades in the database.						
Post-conditions:The dashboard accurately counts remaining tasks and transitions to the "Success" state only when all are done.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Logged in successfully			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard summary cards load			
2	Observe the "Pending Tasks" card header.	3 Assigned Tasks	The purple badge displays "3 pending" .			
3	Mark one task as "Completed" in the Interventions module.	Complete	The badge immediately updates to "2 pending" .			
4	Mark all remaining tasks as "Completed".	All Tasks Completed!	The badge shows "0 pending" ; the card displays the green checkmark and "All tasks completed!".			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_11				Test Designed by: Benedict C. Jambre		
Requirement No: F_11				Test Designed Date: February 16, 2026		
Test Priority (Low/Med/High): Medium				Test Executed by: <to be filled when executed>		
Module Name: Dashboard				Test Execution Date: <to be filled when executed>		
Test Title: Verify Notification Display upon Teacher Intervention Submission						
Pre-conditions: The student is logged into the Dashboard and the Notification panel is visible.						
Post-conditions: The student receives a visual alert or a new entry in the notification list indicating a new intervention has been assigned.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Logged in successfully			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard loads with the "Notifications" panel on the right.			
3	A teacher submits a new intervention/feedback for the logged-in student.	A Teacher will assigned an Intervention	The "No notifications yet" message is replaced by the new entry.			
4	Observe the notification content.	Intervention Message	Notification displays the correct teacher name and intervention summary.			
5	Verify the "Bell" icon status at the top right of the dashboard.	New Notification	A red badge or dot appears on the bell icon.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_12				Test Designed by: Benedict C. Jambre		
Requirement No: F_12				Test Designed Date: February 16, 2026		
Test Priority (Low/Med/High): Medium				Test Executed by: <to be filled when executed>		
Module Name: Dashboard				Test Execution Date: <to be filled when executed>		
Test Title: Verify Notification Display for Teacher Feedback						
Pre-conditions: A teacher has submitted a feedback message for the student.						
Post-conditions: The notification appears in the dashboard panel with the correct message content..						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Navigate to the Student Dashboard.	Dashboard Navigation	Dashboard loads with the "Notifications" panel on the right.			
3	Teacher submits a feedback entry.	"Great improvement in Math!"	A new notification entry appears with the feedback text.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_13			Test Designed by: Benedict C. Jambre			
Requirement No: F_13			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): Medium			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify Notification Display for Task Completion						
Pre-conditions: The student or teacher marks an intervention task as "Completed."						
Post-conditions: A system-generated notification confirms the status change.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Navigate to the Student Dashboard.	N/A	Dashboard loads with the "Notifications" panel on the right.			
3	Request Intervention Complete in intervention module	Request Intervention Complete	Task status changes to green checkmark.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_14			Test Designed by: Benedict C. Jambre			
Requirement No: F_14			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify "View Analytics" Quick Action Redirection						
Pre-conditions: The student is logged in and is currently on the Dashboard page.						
Post-conditions: The system successfully navigates to the Performance Analytics module.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Navigate to the Student Dashboard.	N/A	Dashboard loads with the "Notifications" panel on the right.			
3	Locate the Quick Actions panel on the bottom right of the dashboard.	Dashboard View	Panel is visible and contains "View Analytics".			
4	Click on the View Analytics button/card.	Mouse Click	It will redirect to Performance Analytics module.			
5	Verify the sidebar highlights the correct module after redirection.	Sidebar Navigation	The "Performance Analytics" tab in the sidebar is now highlighted.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_15				Test Designed by: Benedict C. Jambre		
Requirement No: F_15				Test Designed Date: February 16, 2026		
Test Priority (Low/Med/High): High				Test Executed by: <to be filled when executed>		
Module Name: Dashboard				Test Execution Date: <to be filled when executed>		
Test Title: Verify "Interventions & Feed" Quick Action Redirection						
Pre-conditions: The student is logged in and is currently on the Dashboard page.						
Post-conditions: The system redirects the user to the Interventions module for feedback review..						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Navigate to the Student Dashboard.	N/A	Dashboard loads with the "Notifications" panel on the right.			
3	Locate the Quick Actions panel on the bottom right of the dashboard.	Dashboard View	Panel is visible and contains "Interventions & Feed".			
4	Click on the View Interventions & Feed button/card.	Mouse Click	It will redirect to Interventions & Feed module			
5	Verify the sidebar highlights the correct module after redirection.	Sidebar Navigation	The Intervention & Feed tab in the sidebar is now highlighted.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_DASH_16			Test Designed by: Benedict C. Jambre			
Requirement No: F_16			Test Designed Date: February 16, 2026			
Test Priority (Low/Med/High): High			Test Executed by: <to be filled when executed>			
Module Name: Dashboard			Test Execution Date: <to be filled when executed>			
Test Title: Verify "Subjects at Risk" Quick Action Redirection						
Pre-conditions: The student is logged in and is currently on the Dashboard page.						
Post-conditions: The system redirects the user to the specific "Subject at Risk" details page.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Log in as a student with assigned intervention tasks.	Email: student@example.com Password: password	Dashboard summary cards load.			
2	Navigate to the Student Dashboard.	N/A	Dashboard loads with the "Notifications" panel on the right.			
3	Locate the Quick Actions panel on the bottom right of the dashboard.	Dashboard View	Panel is visible and contains "Subjects at Risk".			
4	Click on the View Subjects at Risk button/card.	Mouse Click	It will redirect to Subjects at Risk module			
5	Verify the sidebar highlights the correct module after redirection	Sidebar Navigation	The Subjects at Risk in the sidebar is now highlighted.			

Student Side: Intervention and Feedback

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC IAF_01			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): HIGH			Test Executed by: D			
Module Name: Intervention and Feed			Test Execution Date:			
Test Title: Verify “Intervention and Feed” page loads successfully for a logged-in student						
Pre-conditions: Student is logged in and on Intervention and Feed module						
Post-conditions: Page loads completely with all UI elements visible						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Click “Intervention and Feed” in sidebar	Intervention and Feed Nav	Page header “Intervention and Feed” visible with banner and description			
2	Check all main sections	N/A	Summary Row: Active, Completed, Feedback, and Success Rate cards. Main Feed: Subject cards with "Request Intervention Completion" buttons. Right Panel: Recent Feedback and Quick Tips sections.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_IAF_02			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): HIGH			Test Executed by: De Guzman, Sheena Dianne			
Module Name: Intervention and Feed			Test Execution Date: February 24, 2026			
Test Title: Verify that the intervention summary cards display correct counts and percentages.						
Pre-conditions: Student is logged in and has at least one active and one completed intervention assigned.						
Post-conditions: Student is informed of their current academic standing through accurate data.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Navigate to "Interventions & Feed" from the sidebar.	N/A	Dashboard cards load showing: Active Interventions, Completed, Feedback Messages, and Task Success Rate.			
2	Compare "Active Interventions" count with the list of cards below.	DB Record Count: 1	Card count (e.g., "1") matches the number of intervention cards labeled "Active".			
3	Compare "Completed" count with the list of cards below.	DB Record Count: 1	Card count (e.g., "1") matches the number of intervention cards labeled "Completed".			
4	Observe the 'Feedback Messages' card	DB Record Count: 1	The card displays the number '1' with a message bubble icon.			
5	Verify 'Task Success Rate' calculation	Calculation: (Completed / Total)	The card displays '50%' (or 0% if logic excludes active tasks).			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_IAF_03				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: De Guzman, Sheena Dianne		
Module Name: Intervention and Feed				Test Execution Date: February 24, 2026		
Test Title: Verify that the intervention filters (All, Active, Completed) correctly display the matching records.						
Pre-conditions: Student is logged in and on the Intervention and Feed module. The student has at least one "Active" and one "Completed" intervention recorded in their account.						
Post-conditions: The displayed list of interventions accurately matches the selected filter category.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Click on the "Active" filter tab.	Mouse Click	The list shows only intervention cards with a blue "Active" status badge. The "Active" tab is highlighted.			
2	Click on the "Completed" filter tab.	Mouse Click	The list shows only intervention cards with a green "Completed" status badge. The "Completed" tab is highlighted.			
3	Click on the "All" filter tab.	Mouse Click	The list shows all intervention records (both Active and Completed). The "All" tab is highlighted.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC IAF 04				Test Designed by: Benedict C. Jambre		
Requirement No: F 01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): HIGH				Test Executed by: De Guzman, Sheena Dianne		
Module Name: Intervention and Feed				Test Execution Date: February 24, 2026		
Test Title: Verify that intervention cards accurately reflect the student's subjects and the total count assigned by the teacher.						
Pre-conditions:The student is enrolled in specific subjects (e.g., Creative Writing) and the teacher has assigned a specific number of intervention tasks						
Post-conditions: The student sees subjects and the exact number of tasks intended for them.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Compare the "Active Interventions" summary card count with the number of cards in the list.	N/A	The number on the summary card (e.g., "1") exactly matches the number of individual intervention cards visible.			
2	Verify the specific details on each card (Subject Name, Teacher Name).	Subject: Creative Writing Teacher: Jane Teacher	Each card correctly displays "Creative Writing," "Section: STEM A," and "Jane Teacher" as the assigner.			
3	Verify "Tier" and "Agreement" labels match the student's record.	Tier 3: Academic Agreement	The card correctly labels the intervention level as "Tier 3" with the specific "Academic Agreement" description.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_IAF_05			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): HIGH			Test Executed by: De Guzman, Sheena Dianne			
Module Name: Intervention and Feed			Test Execution Date: February 24, 2026			
Test Title: Verify the display and functionality of an active Intervention Card.						
Pre-conditions:. The student is logged into the system. An active intervention has been assigned by a teacher (e.g., Tier 3: Academic Agreement).						
Post-conditions: User successfully initiates the completion request workflow.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Navigate to the student Intervention and Feedback and locate the intervention card.	N/A	The card displays the subject name (e.g., Creative Writing) and section (e.g., STEM A).			
2	Verify the visibility of status badges and teacher information.	N/A	"Active" and "Tier 3" badges are visible; teacher name (e.g., Jane Teacher) is displayed.			
3	Check the accuracy of the academic metrics shown on the card.	(e.g., Grade: 87%, Attendance: 50%, Missing Work: 0)	Metrics match the student's current records in the database.			
4	Click the "Request Intervention Completion" button.	Mouse Click	The system redirects the user to the "Request Completion" modal/form.			
5	Enter optional notes for the teacher and click "Submit Request" .	Notes: "Completed all required remedial tasks."	Modal closes and a "Request Sent" confirmation appears; status changes to pending.			
6	Simulate Teacher Approval (Backend/Admin action) and view the card again.	Teacher Approval Action	The card now displays a green banner: "Intervention Completed!" with the approval date (Image 3).			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC IAF 06			Test Designed by: Benedict C. Jambre			
Requirement No: F 01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): HIGH			Test Executed by:			
Module Name: Intervention and Feed			Test Execution Date:			
Test Title: Verify that new teacher feedback is displayed and can be marked as read.						
Pre-conditions: Student is logged in and a Teacher has sent a feedback message regarding a completed intervention.						
Post-conditions: Notification count decreases once feedback is marked as read.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	View the "Recent Feedback" section on the right side of the screen.	N/A	Feedback from Jane Teacher is visible with "Intervention Completed!" message.			
2	Click the "Mark as read" link at the bottom of the feedback card.	Mouse Click	The notification badge on the sidebar decreases by one.			
3	Refresh the page.	Refresh Event	The feedback remains in the history but is no longer highlighted as "New/Unread."			

Student Side: Learn More

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_LearnMore_01			Test Designed by: Benedict C. Jambre

Test Title: Verify visibility and accessibility of Tutorial Cards						
Pre-conditions: User is logged into the SATIS system and is on the Tutorials/Help page.						
Post-conditions: User is ready to select a specific feature tutorial.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the "Step-by-Step Tutorials" header and subtext.	N/A	Header "Step-by-Step Tutorials" and subtext are clearly visible.			
2	Count the available tutorial cards.	N/A	Exactly 6 cards are displayed (Dashboard, Analytics, etc.).			
3	Verify that each card shows the correct "steps" count.	N/A	Dashboard shows "7 steps", Interventions shows "6 steps", etc.			
4	Hover one of the card.	Hover over the "Dashboard" card arrow button.	The arrow button or card should show a hover state or animation.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone

Requirement No: F_03				Test Designed Date: February 17, 2026		
Test Priority (Low/Med/High): High				Test Executed by: Sheena Diane De Guzman		
Module Name: Learn More				Test Execution Date: February 22, 2026		
Test Title:Verify Dashboard Tutorial Modal (Step 1 of 7) Functionality						
Pre-conditions: User is on the Tutorial selection page.						
Post-conditions: User successfully proceeds to Steps of the tutorial.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Click the arrow button on the "Dashboard" tutorial card.	Mouse Click	A modal pops up with title "Dashboard" and "Step 1 of 7".			
2	Check for the text of the "Welcome Section" icon and text.	N/A	Home icon, "Welcome Section" title, and description are visible.			
3	Verify the "Previous" button state.	N/A	The "Previous" button is disabled or greyed out (since it's Step 1).			
4	Click the "Next" button.	Mouse Click	Displays Step 2 of 7 and Key Statistics.. Highlights metrics like Overall Grade and Attendance. Location: Stats Grid Section.			
5	Click Next	Mouse Click	Displays Step 3 of 7 and Quick Actions. Explains one-tap access to attendance and analytics. Location: Quick Actions Section.			
6	Click Next	Mouse Click	Displays Step 4 of 7 and Subject Overview. Explains the subject overview. Location: Subjects Section.			

7	Click Next	Mouse Click	Displays Step 5 of 7 and Performance Chart .. Shows mini-chart for grade trends over time. Location: Chart Section .			
8	Click Next	Mouse Click	Displays Step 6 of 7 and Notifications . Explains how the notification works. Location: Notifications Section			
9	Click Next	Mouse Click	Displays Step 7 of 7 and Navigation Menu .. Explains the sidebar menu. Location: Notifications Section			
10	Click Finish	Mouse Click	Modal closes and returns user to the tutorial selection page.			
11	Click "X"	Mouse Click	At any step, clicking the "X" in the top right closes the modal immediately.			
12	Click Previous	Mouse Click	Content reverts accurately to the preceding step and subheading.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_LearnMore_04				Test Designed by: Benedict C. Jambre		
Requirement No: F_04				Test Designed Date: February 17, 2026

Test Title: Verify "How is my overall grade calculated?" accordion expansion.						
Pre-conditions: User is logged into the system,User is on the Learn More module.						
Post-conditions: User can successfully read all four proven strategies for academic improvement.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the "Study Tips for Success" section header.	N/A	Header and subtext "Proven strategies to improve your academic performance" are clearly visible.			
2	Verify Tip #1: Set a Study Schedule.	N/A	Blue card is visible, text describes creating a consistent routine and building a habit.			
3	Verify Tip #2: Take Active Notes.	N/A	Purple card is visible, text describes writing summaries and asking questions about material.			
4	Verify Tip #3: Break It Down.	N/A	Orange card is visible, text describes breaking large tasks into manageable chunks.			
5	Verify Tip #4: Ask For Help Early.	N/A	Green card is visible, text encourages contacting teachers immediately when struggling.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_LearnMore_18				Test Designed by: Benedict C. Jambre		
Requirement No: F_18				Test Designed Date: February 17, 2026		
Test Priority (Low/Med/High): Low				Test Executed by: De Guzman, Sheena Dianne		
Module Name: Learn More				Test Execution Date: February 22, 2026		
Test Title:Verify Display and Logic of Academic Status Indicators.						
Pre-conditions: User is logged into the system,User is on the Learn More module.						
Post-conditions: User successfully identifies the three status categories and their corresponding grade requirements						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the "Understanding Your Progress" section header.	N/A	Header and subtext "Learn what the different status indicators mean" are clearly visible.			
2	Verify the On Track (Green) card content.	N/A	Title "You're Doing Great!" is visible. Text states "Your grade is 75% or higher."			
3	Verify the Needs Attention (Yellow) card content.	N/A	Title "Room for Improvement" is visible. Text states "Your grade is between 70-75%."			
4	Verify the At Risk (Red) card content.	N/A	Title "Take Action Now" is visible. Text states "Your grade is below 70%."			
5	Check for visual consistency (Colors).	N/A	Each card uses the correct background tint (Green for On Track, Yellow for Attention, Red for Risk).			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_LearnMore_19				Test Designed by: Benedict C. Jambre		
Requirement No: F_19				Test Designed Date: February 17, 2026		
Test Priority (Low/Med/High): Medium				Test Executed by: De Guzman, Sheena Dianne		
Module Name: Learn More				Test Execution Date: February 22, 2026		
Test Title: Verify Display and Functionality of Support Communication Channels						
Pre-conditions: User is logged into the system,User is on the Learn More module.						
Post-conditions: User can successfully access support contact information and trigger external communication links.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the "Contact & Resources" header.	N/A	Header and subtext "Get help when you need it" are visible.			
2	Verify the On Track (Green) card content.	N/A	Displays icon, "Email Support" title, and official email: support@sat-is.edu .			
3	Click the "Send Email →" link.	Mouse Click	System triggers the default mail client with the recipient set to support@sat-is.edu .			
4	Verify Call Us card content.	N/A	Displays phone icon and official contact number: (123) 456-789 .			
5	Click the "Call Now →" link.	Mouse Click	If on mobile, triggers the dialer; if on desktop, triggers the default VoIP application.			
6	Verify Send Message card content.	N/A	Displays chat icon and "Contact Administration" subtext.			
7	Click the "Open Chat →" link.	Mouse Click	Opens the in-app chat interface or redirects to the "Contact Administration" module.			
8	Verify "Still Need Help?" banner.	N/A	Bottom purple banner is visible with a			

			"Contact Support Team" button.			
9	Click the "Contact Support Team" button.	Mouse Click	Redirects the user to a more detailed support request form or live help session.			

Student Side: Performance Analytics

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_01				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title:						
Pre-conditions:						
Post-conditions:						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Click "Performance Analytics" in sidebar	Performance Analytics	Page header "Performance Analytics" visible with banner and description			
2	Check all main sections	N/A	All sections visible such as "Academic Year", "Semester Toggle", "Summary Analytics Cards", "Intervention Banner", and "Subject Performance Cards".			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_02			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): High			Test Executed by: \			
Module Name: Performance Analytics			Test Execution Date:			
Test Title: Verify "Refresh" button functionality and visual state						
Pre-conditions: Student is logged into the system and is on a module containing the Refresh button						
Post-conditions: The data on the page is updated without a full browser reload.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the "Refresh" button UI	Performance Analytics	Button is visible with a circular arrow icon and the text "Refresh".			
2	Hover over the Refresh button	N/A	Button changes visual state (shadow) to indicate it is clickable.			
3	Click the Refresh button	Mouse Click	A brief loading indicator appears, and the module data (grades, stats) is updated.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_03				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify Semester navigation logic and cursor feedback						
Pre-conditions: Admin has not yet enabled/set data for the 2nd Semester.						
Post-conditions: Student is prevented from accessing the unavailable semester.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the Semester tab bar.	Performance Analytics	"1st Semester" is active (pink); "2nd Semester" appears inactive (greyed out).			
2	Hover the mouse over the "2nd Semester" tab.	Mouse Hover	Cursor changes to a "stop sign" (not-allowed) icon.			
3	Attempt to click the "2nd Semester" tab.	Mouse Click	Tab does not become active; page content remains on 1st Semester data.			
4	Verify sub-text below the tabs.	N/A	Text displays "Viewing First Semester subjects (The total number of subjects)".			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_04			Test Designed by: Benedict C. Jambre			
Requirement No: F_01			Test Designed Date: February 20, 2026			
Test Priority (Low/Med/High): High			Test Executed by: \			
Module Name: Performance Analytics			Test Execution Date:			
Test Title: Verify accuracy and visibility of Analytics Summary Cards						
Pre-conditions: Student is on the Performance Analytics page with loaded academic data.						
Post-conditions: Summary metrics correctly reflect the student's status.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Verify the "Overall Grade" card.	Student Data	Displays the weighted average of all currently enrolled subjects.			
2	Verify "Total Subjects" card.	Assigned Subjects	Value matches the total number of subjects the student is taking.			
3	Verify "Subjects at Risk" card.	Grade Logic	Displays the count of subjects where the grade is below the 70-75% threshold.			
4	Observe the "Needs Attention" banner.	System Logic	Banner appears if one or more subjects are tagged "At Risk" or "Needs Attention."			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_05				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify accuracy and visibility of Analytics Summary Cards						
Pre-conditions: Student is logged into the system.. Students has a defined number of enrolled subjects in the database (e.g., 6 subjects).						
Post-conditions: The number of UI cards rendered matches the backend enrollment count exactly.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Navigate to the "Performance Analytics" module from the sidebar.	N/A	Page loads with the "Performance Analytics" header.			
2	Count the physical "Subject Cards" displayed in the grid area.	N/A	Total count of cards equals the student's actual number of enrolled subjects (e.g., 6 cards).			
3	Cross-reference the count with the "Total Subjects" summary metric card.	N/A	The number displayed in the summary card (e.g., "6") matches the number of physical cards on the screen.			
4	Verify the status subtext located below the semester tabs.	N/A	Text dynamically displays the correct count (e.g., "Viewing First Semester subjects (6 of 6 total)").			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_06				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify Subject Card Status Labeling and Visual Indicators						
Pre-conditions: Student is logged into the system.. Students has subjects with varying performance levels (Passing, At Risk, No Grade).						
Post-conditions: Cards correctly display status badges and progress bar colors based on grade value.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Verify card for a high-performing subject.	Grade > 80	Displays "Very Good" or "Good" badge with a blue progress bar.			
2	Verify card for an "At Risk" subject.	Grade < 70	Displays red "At Risk" badge and a red progress bar.			
3	Verify card with no recorded grades.	Null Grade	Displays "NO GRADES YET" and an empty/grey progress bar.			
4	Check for "Intervention" tag.	Intervention Data	Orange "Intervention" tag appears on subjects requiring specific teacher-led actions.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_07				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify Subject-Specific Analytics Navigation and Header Information						
Pre-conditions: Student is logged into the system.Student is on the Performance Analytics dashboard and clicks on a specific subject card (e.g., Business Finance).						
Post-conditions: Detailed view for that specific subject loads with accurate metadata.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Observe the Breadcrumb navigation.	N/A	Breadcrumb shows "Performance Analytics > [Subject Name]".			
2	Verify card for an "At Risk" subject.	Student Enrollment	Correct Subject Name, Teacher, Academic Year, and Section (e.g., STEM A) are displayed.			
3	Verify card with no recorded grades.	Grade Data	Grade and rating (e.g., 81 - Good) are visible in the top right corner.			
4	Click "Export PDF" button.	Mouse Click	System triggers a download for the academic report in PDF format.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_08				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify Attendance and Grade Trend Visualizations						
Pre-conditions: Student is logged into the system. Student is on the Performance Analytics dashboard and is viewing the Subject-Specific Analytics page with existing data for at least one quarter.						
Post-conditions: Graphical elements correctly visualize numerical data.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Verify the "Grade Trend" Bar Chart.	Quarterly Grades	Chart shows a vertical bar representing the grade (e.g., 81) for Q1.			
2	Verify "Attendance" summary grid.	Attendance Records	Displays Rate (25%), Present (0), Absent (1), and Late (1) counts.			
3	Check color coding of metrics.	System Logic	Low metrics (e.g., 25% attendance) are highlighted in red/warning colors.			
4	Verify attendance percentage.	100% Attendance	Card footer displays "100% Attendance" and the correct number of items (3 items).			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_09				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify "For Your Case" Personalized Grade Projection and Risk Analysis						
Pre-conditions: Student is logged into the system.Student is on the Performance Analytics dashboard and clicks on a specific subject card (e.g., Business Finance).						
Post-conditions: The system provides a mathematical breakdown of why the projected grade was calculated.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Locate the "For Your Case" pink section.	Subject Data	Section header "Personalized Grade Analysis & Insights" is visible.			
2	Verify the "Current Grade" vs. "Expected Grade" display.	e.g., Current: 85%, Expected: 78%	Both metrics are visible as large, clear values for easy comparison.			
3	Check the "Expected Grade Factors" table breakdown.	e.g., Attendance Effect, Task Completion, Trend Projection	The table lists specific factors that added to or deducted from the baseline grade.			
4	Validate the math in the "Final Expected Grade" row.	e.g., Base (85) - Attendance (-5) - Task (-2) = 78%	The "Computed Projection" matches the sum/difference of the listed factors.			
5	Verify Risk Indicator visibility	N/A	Risk status is "High". Red indicator for "Critical attendance: 25%" is visible.			
6	Check "Gap to Very Satisfactory" logic	Target = 85%	Badge displays "+25 points needed" (Difference between 85% target and 60% projection).

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone						
Test Case ID: TC_PA_13				Test Designed by: Benedict C. Jambre		
Requirement No: F_01				Test Designed Date: February 20, 2026		
Test Priority (Low/Med/High): High				Test Executed by: \		
Module Name: Performance Analytics				Test Execution Date:		
Test Title: Verify "System-Generated Approach" button navigation.						
Pre-conditions: Student is logged into the system.Student is on the Performance Analytics dashboard. The "Expected Grade" is currently below the "Target Grade" (triggering the need for an improvement plan).						
Post-conditions: The system displays a 4-step actionable plan with a new "Projected" grade that is higher than the current "Expected" grade.						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Open the System-Generated Approach modal.	Click "Personalized Improvement Plan" button.	Section header "Personalized Grade Analysis & Insights" is visible.			
2	Verify Goal Setting section displays the gap between current and target performance.	e.g., Current: 87%, Expected: 77%, Target: 85%.	System identifies the exact gap to close (e.g., 8 points).			
3	Check Attendance Improvement logic and grade impact calculation.	e.g., Current 63% (6/8 days) to Target 73%.	Formula correctly calculates point increase (e.g., +2 points) based on \$0.5\$ point per 1% increase.			
4	Verify Task Completion incentives are displayed correctly.	e.g., Current completion 0% moving to 20%+.	Rewards displayed: +1 point for ≥ 70% completion; +2 points for ≥ 90%			
5	Validate Performance Trends (Momentum) requirements.	e.g., Goal: "Consistently Improving".	Bonus (+1 point) is offered for 3+ consecutive score improvements.			
6	Verify Target Score calculation for future assessments.	e.g., Average of 89% needed on next 5 tasks.	System calculates the specific average needed on remaining tasks to reach the Target Grade.			
7	Confirm Summary & Projection reflect the potential grade increase.	e.g., Plan raises Expected 77% to Projected ~81%.	The "Projected" box displays a value higher than "Expected" but			

			lower or equal to "Target".			
8	Review Calculation Methodology for transparency.	Scroll to bottom of the modal.	Methodology displays DepEd weights (e.g. , Performance 50%) and the Risk Score formula.			

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone

Post-conditions: Multiple subjects exist with different statuses: one High Risk (e.g., Creative Writing) and one Low Risk (e.g., Business Mathematics).						
No.	Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)	Comments
1	Click on a Subject Card (e.g., Creative Writing or Business Math).	Mouse Click	A modal pop-up appears displaying the subject name and assigned teacher at the top.			
2	Verify Risk Badge and Header color.	N/A	The badge and header background reflect the status: Red/High Risk, Yellow/Medium Risk, Green/Low Risk.			
3	Check for Risk Factors section (Conditional).	Attendance below 80%	If High Risk: A "Risk Factors" box is visible listing specific triggers (e.g., "Attendance below 80%"). If Low Risk: This section is hidden.			
4	Validate Grade Overview and Breakdown.	Input: Attendance 50%	The "Current Grade" and "Expected Grade" match. The progress bar reflects the percentage			

			(e.g., 87.3% or 78.3%).			
5	Verify Attendance stats and bar.	50% (Red Bar)	Total, Present, Absent, and Late counts are visible. The Attendance Rate bar is Red if below the threshold (e.g., 50%) and Green if passing (e.g., 100%).			
6	Check for Active Intervention (Conditional).	Tier 3: Academic Agreement None	If High Risk: An "Active Intervention" box is visible (e.g., "Tier 3: Academic Agreement"). If Low Risk: This section is hidden.			
7	Click " View Full Analytics " button.	Mouse Click	The system redirects the user to the detailed Performance Analytics module.			
8	Click the " X " icon in the top right.	Redirects to Subjects at Risk Module	The modal closes and returns the user to the Subjects at Risk module.			

Teacher Side: Attendance

Project Name: SATIS-FACTION: Smart Academic Tracking and Intervention System for Baliwasan Senior High School - Stand Alone
